Lab 6 - Investigating email crimes

1. Recovering deleted emails using the Recover My Email

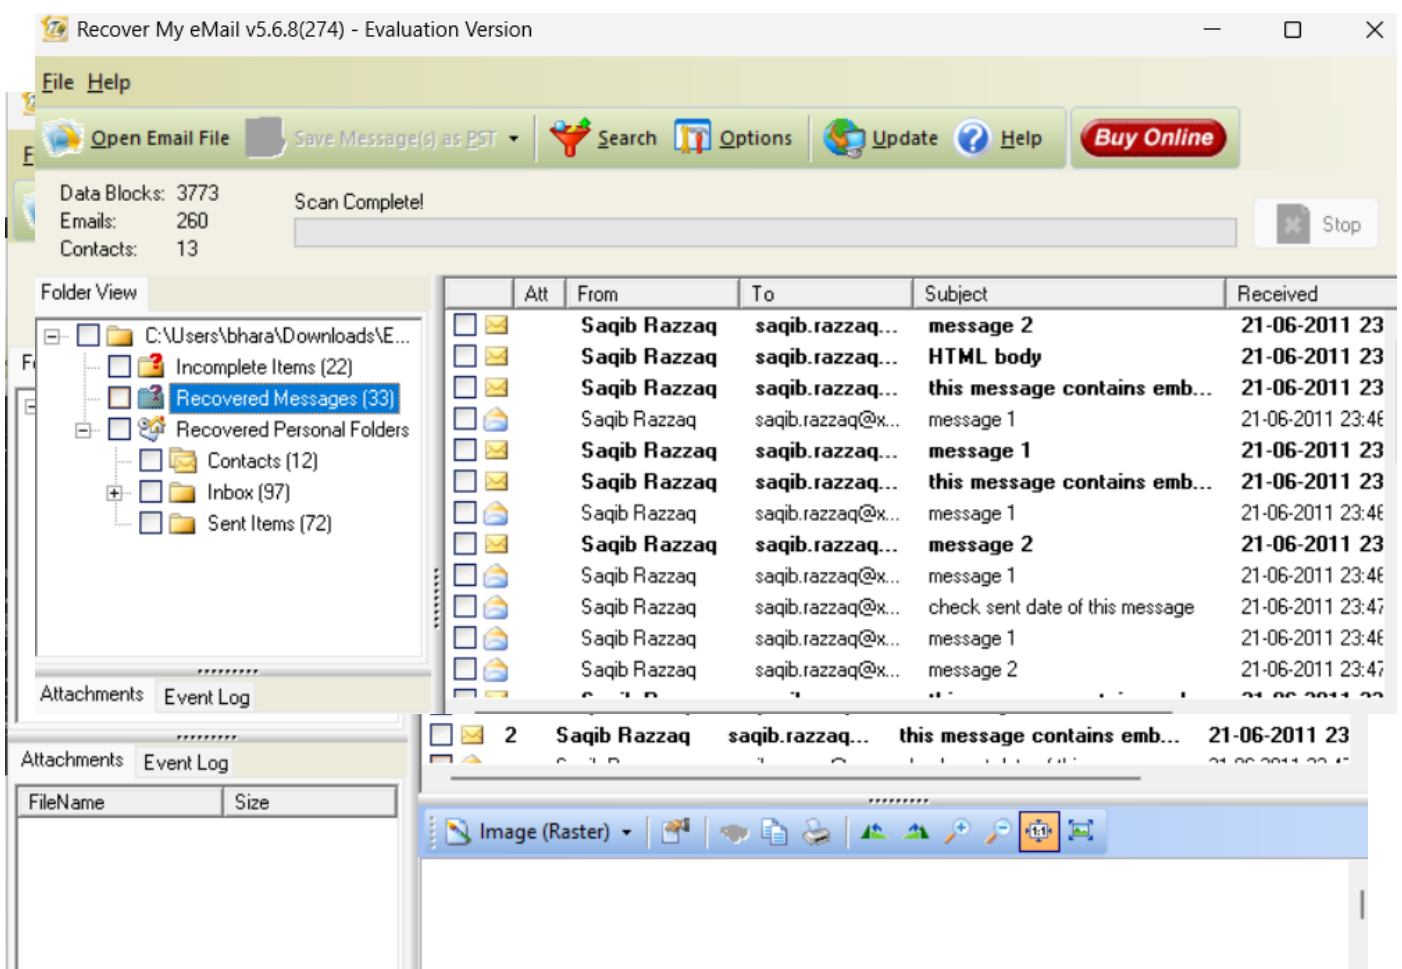

Open Recover My Email

Click open Email File and select the .pst file

To see the recovered emails, click Recovered Messages in the folder view tab.

To see the recovered emails or messages, search the all mail folder with the respective recipient address and the subject of the recovered email list. To search click the search button.

Select By To: recipient address or By Subject options and click ok

Recover My eMail v5.68

Search

☐ By From:

☐ By To:

☒ By Subject:

☐ By Dates: From to

☐ By Size: From to kB

☐ By Attachments: From to

☐ By ID: From to

☐ Include messages with empty body

☐ Include messages with Unknown body

For "From", "To" and "Subject" use Grep commands:

\ or " " "SPACES" and "@" symbols" must be literal or quoted characters
I.E. 'Getdeata' 'Support' or 'support\@getdata.com'

? match one of anything

* match any number of anything

"xxx" match literal string inside quotes

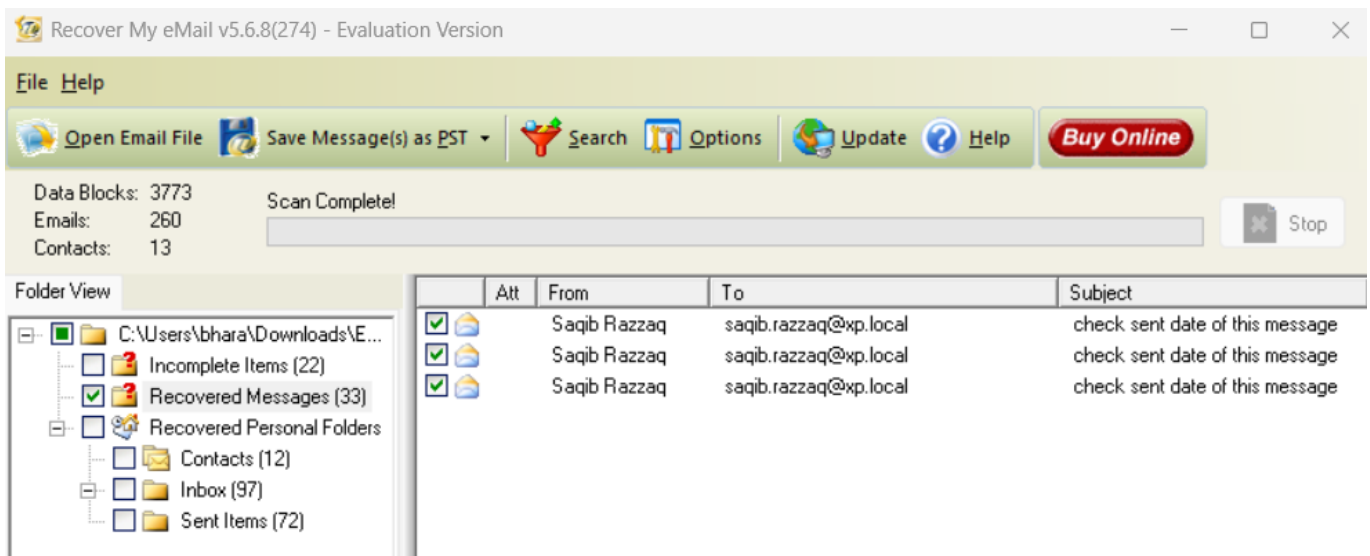

[xxxx] any one of a set of chars; inside, use "A-Z" to span chars

[-xxxx] any one not in set of chars

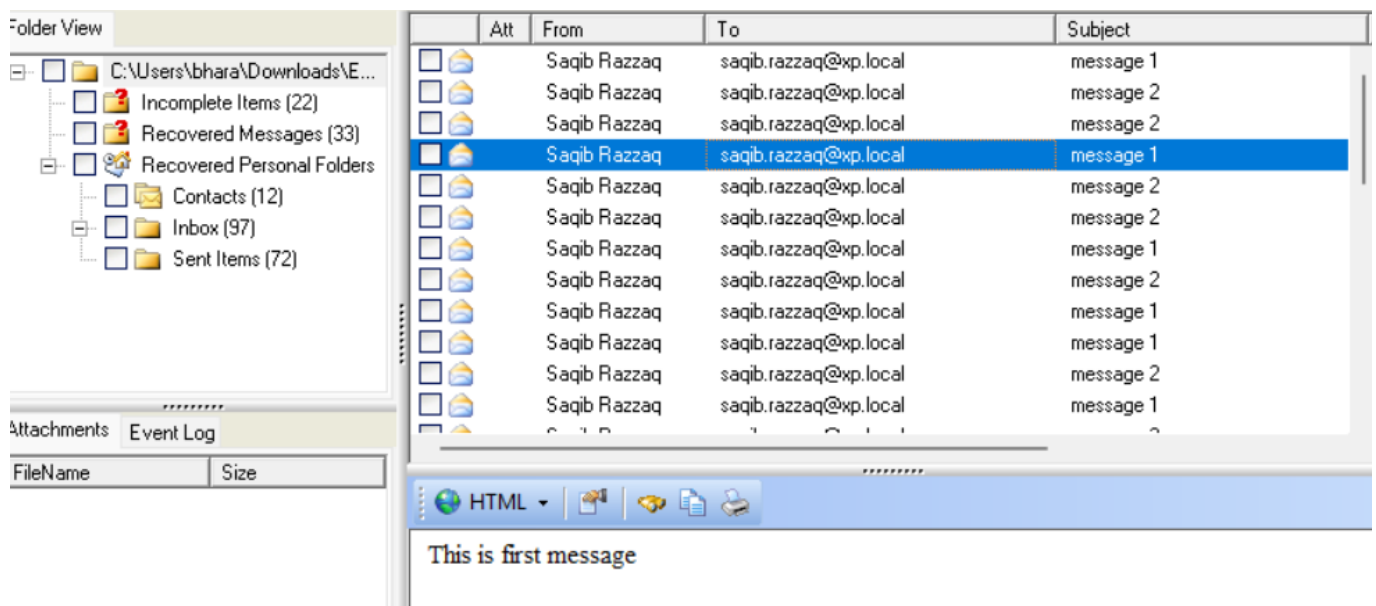

& logical AND of 2 expressions; normally not needed

| logical OR of 2 expressions

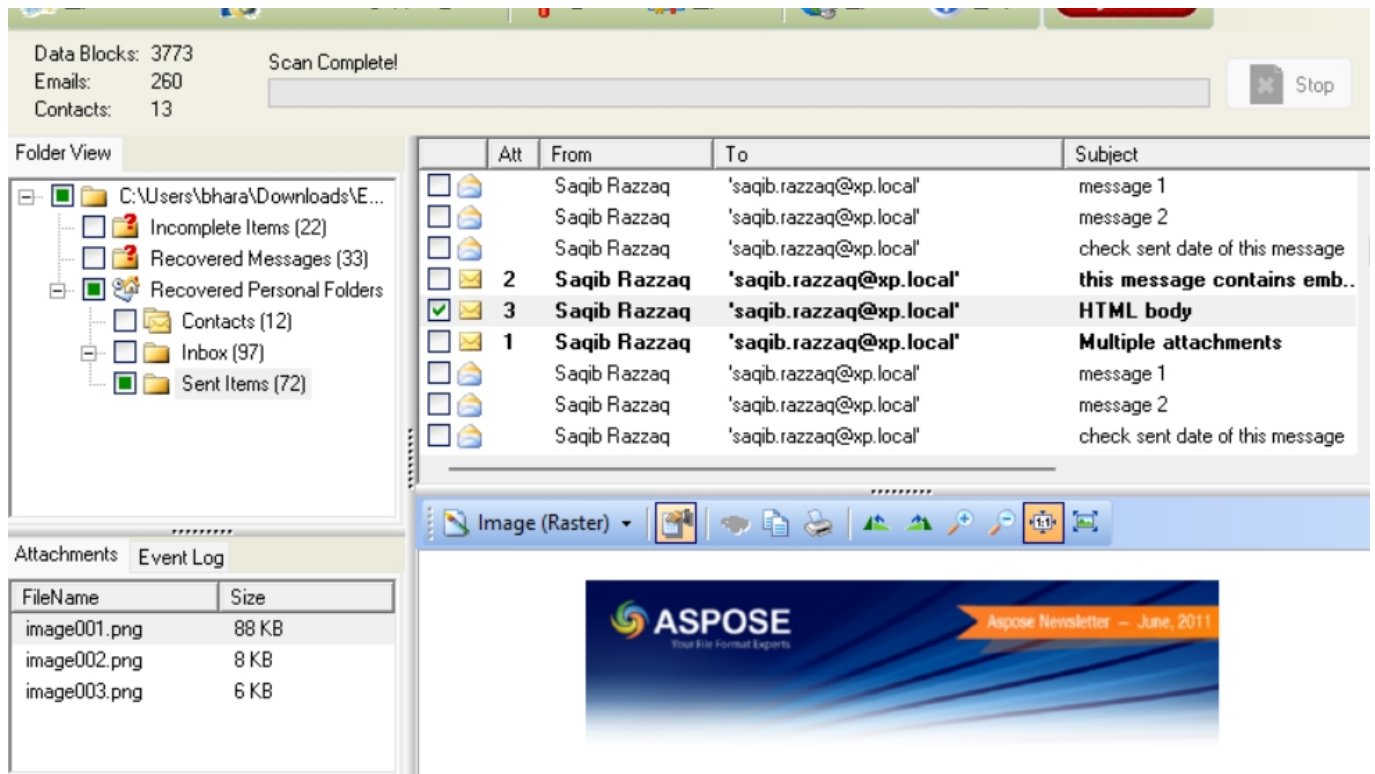

OK **Cancel** **Help**

To see the actual contents of the email , click the email and the email cont will be displayed in the bottom pane.

To see the attachments, click the attachments pane on the left to display the attachment in the data viewer.

2. Investigating Email crimes using Paraben's Email Examiner tool

Open Paraben's email examiner

create a new case and save.

The image shows two overlapping windows of a 'New Case' dialog box. The top window is on the 'Case Properties' tab, and the bottom window is on the 'Additional Information' tab.

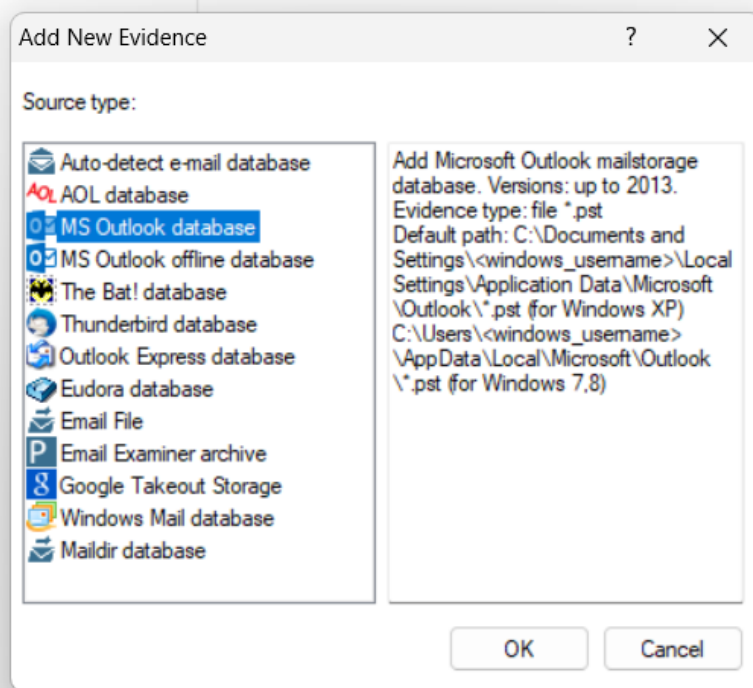

New Case (Top Window - Case Properties):

- Tab: **Case Properties**
- Section: **Case Properties**
- Message: Please enter case properties. The Case name field is required.
- Field: Case name:

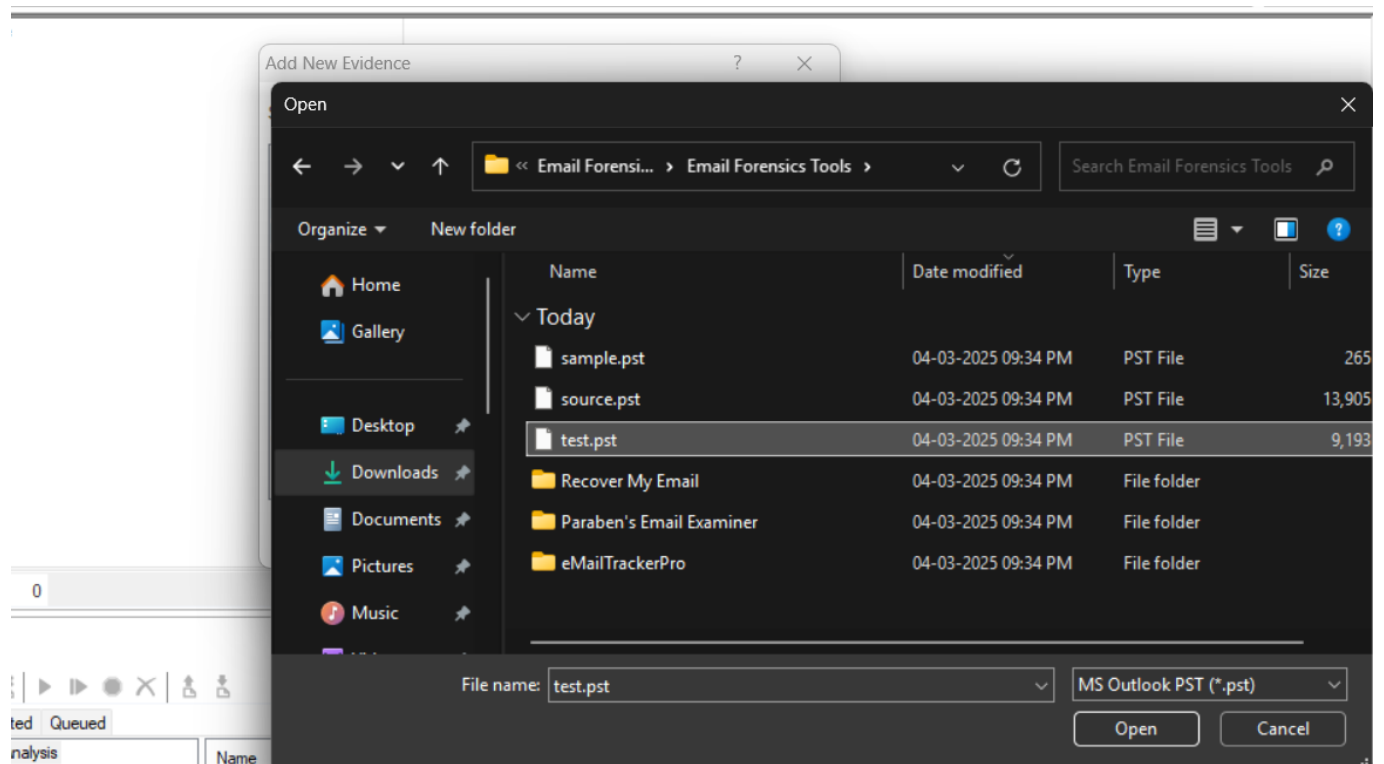

New Case (Bottom Window - Additional Information):

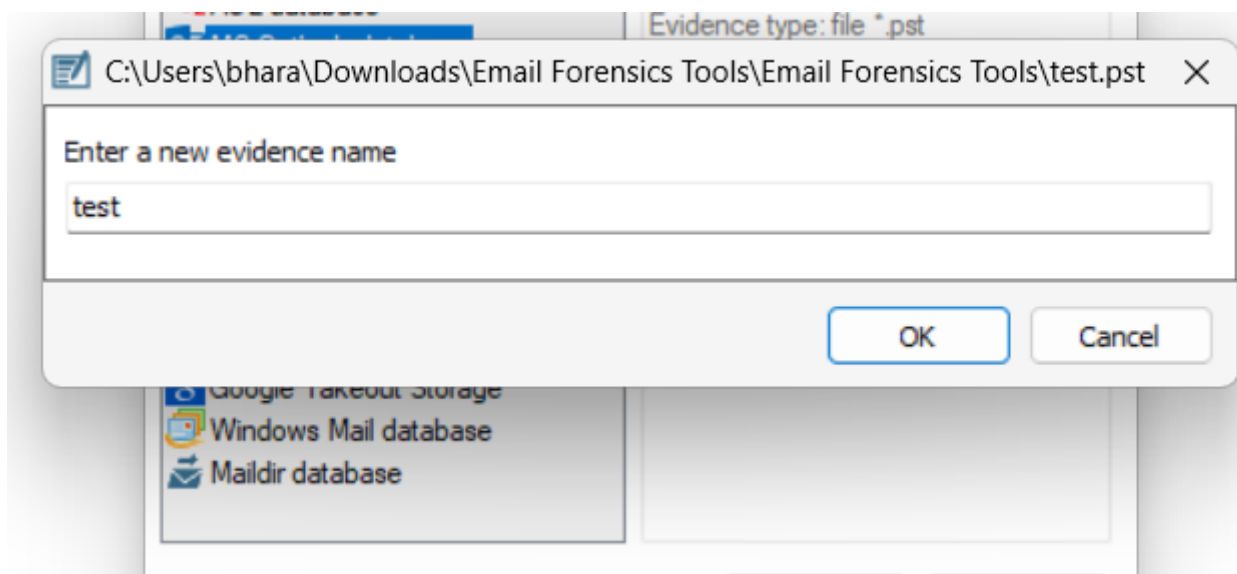

- Tab: **Additional Information**
- Section: **Additional Information**
- Message: Please enter additional information. This information is not required and can be filled any time through the Properties pane.
- Fields:
 - Investigator name:
 - Agency/Company:
 - Phone:
 - Fax:
 - Address:
 - E-mail:
 - Comments:
- Buttons: < Previous, Next >, **Finish**, Cancel

Then Add new evidence and select the source type as MS Outlook database.

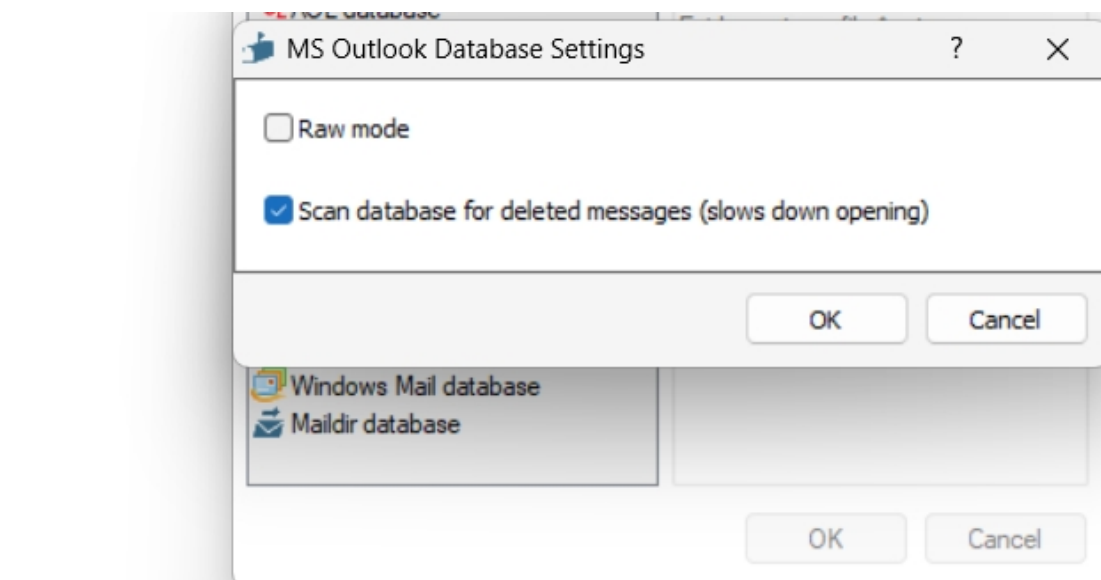

Open the .pst file and click ok.

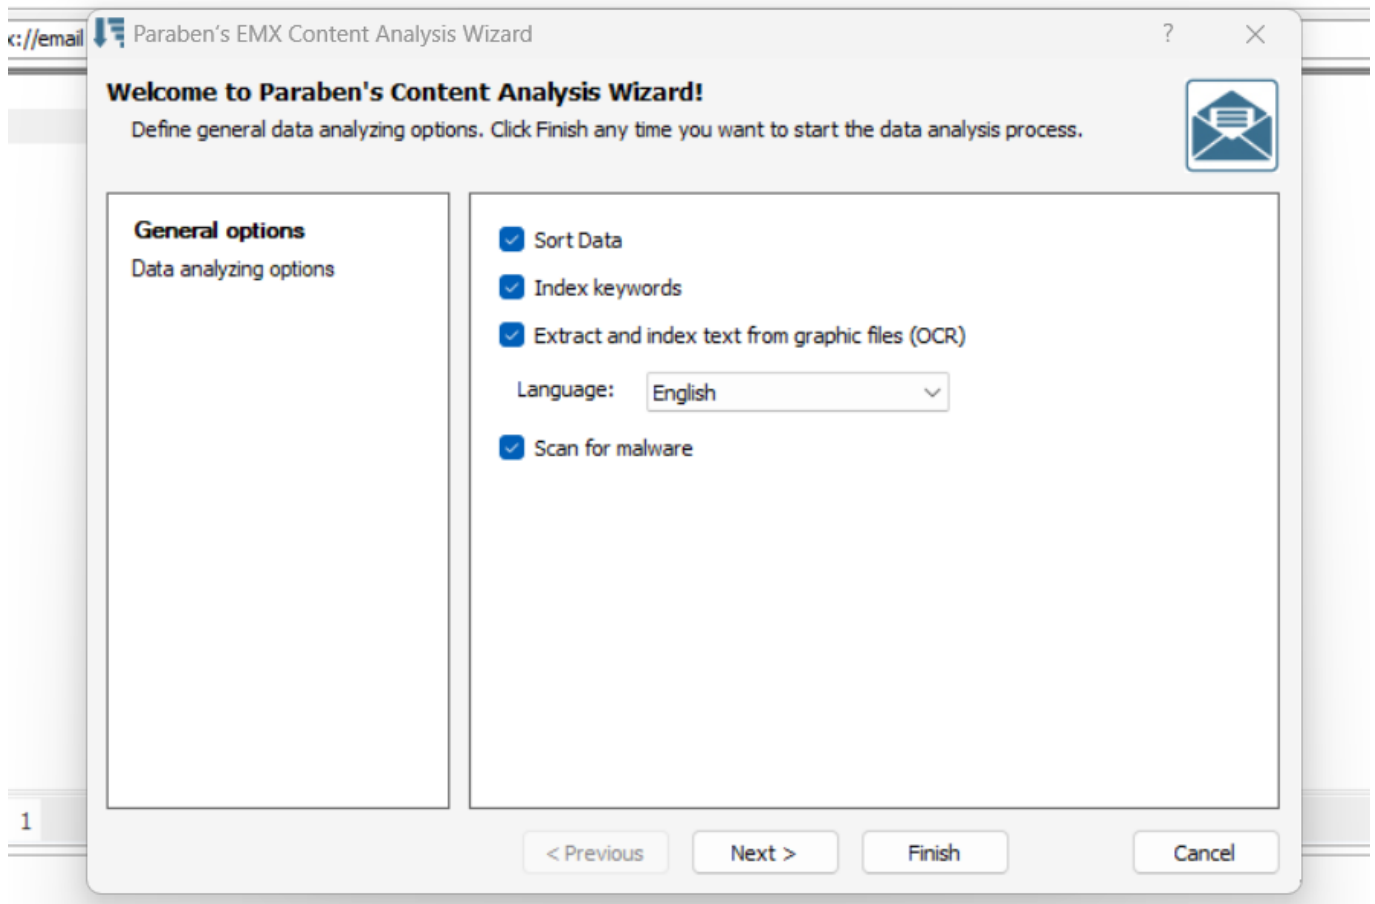

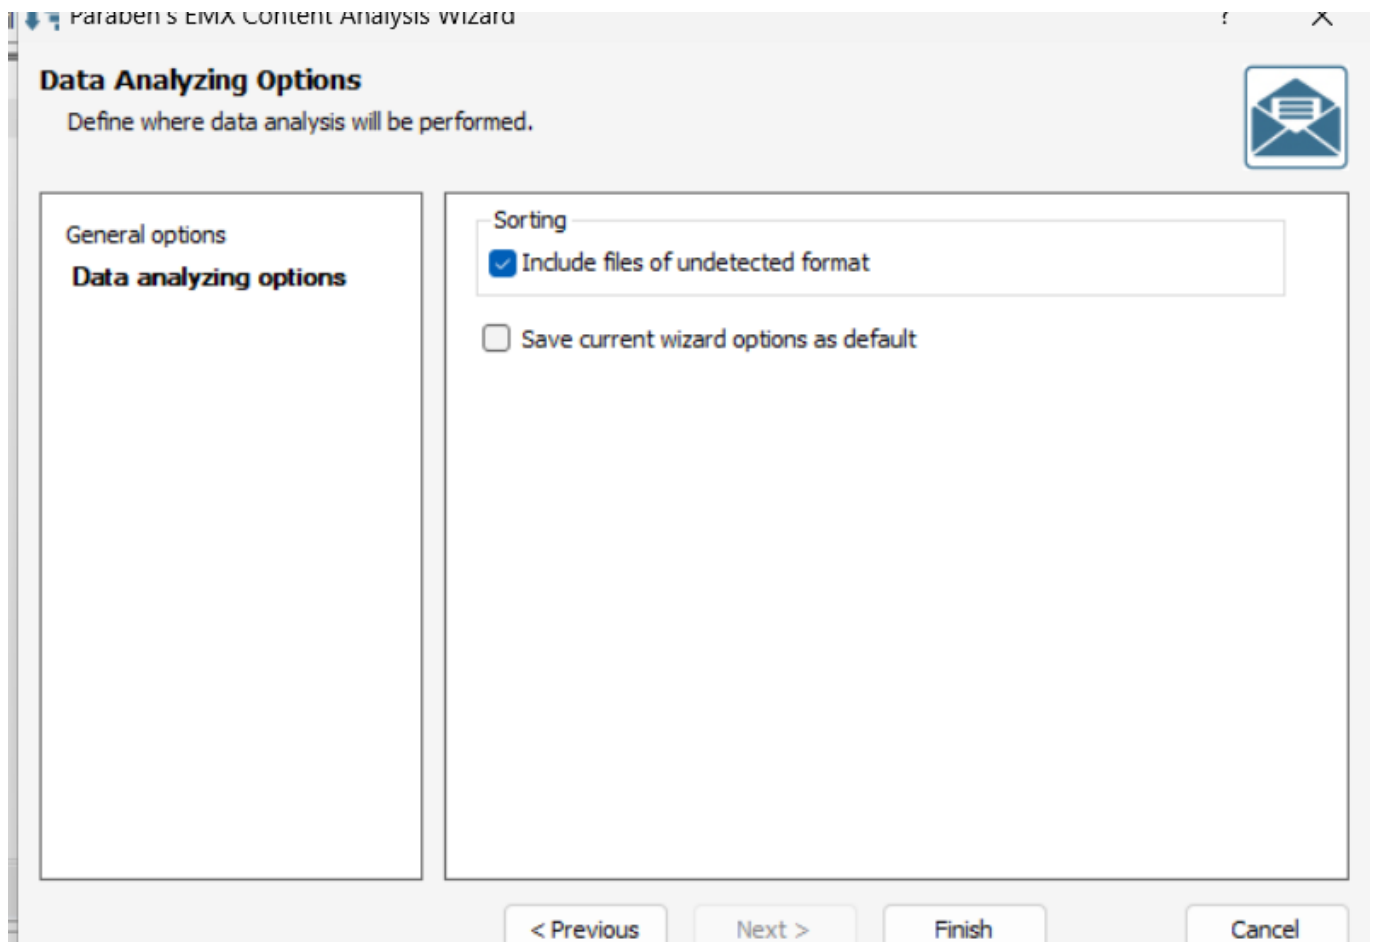

Set the MS outlook database settings to Scan database for deleted messages

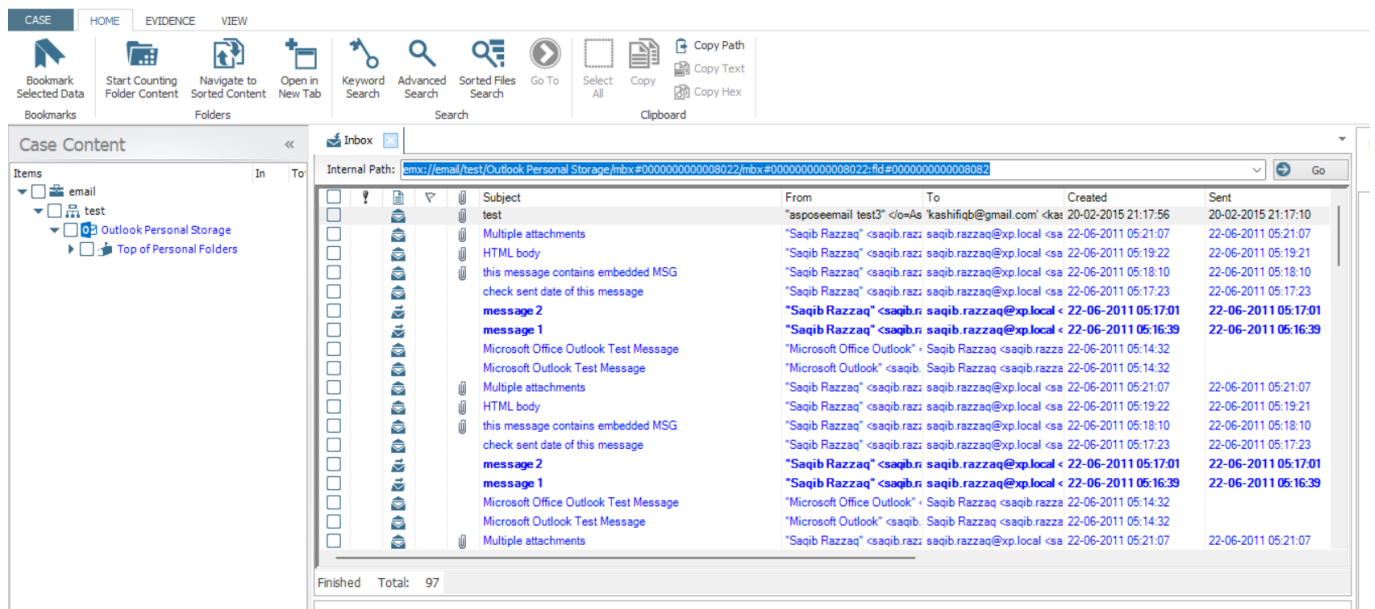

Paraben's EMX content analysis wizard appears , check all options and click next

In data analysing options leave the default settings and click finish.

The email structure is displayed in the case content pane.

Select any message and click properties tab to view properties of the email.

The screenshot shows an email client interface. On the left, there is a sidebar with a tree view showing folders like 'olders'. The main pane displays a list of messages. The selected message is 'message 2' with a subject line 'Saqib Razzaq' and a date of '22-06-2011 05:17:01'. The 'Properties' tab is active, showing the following details:

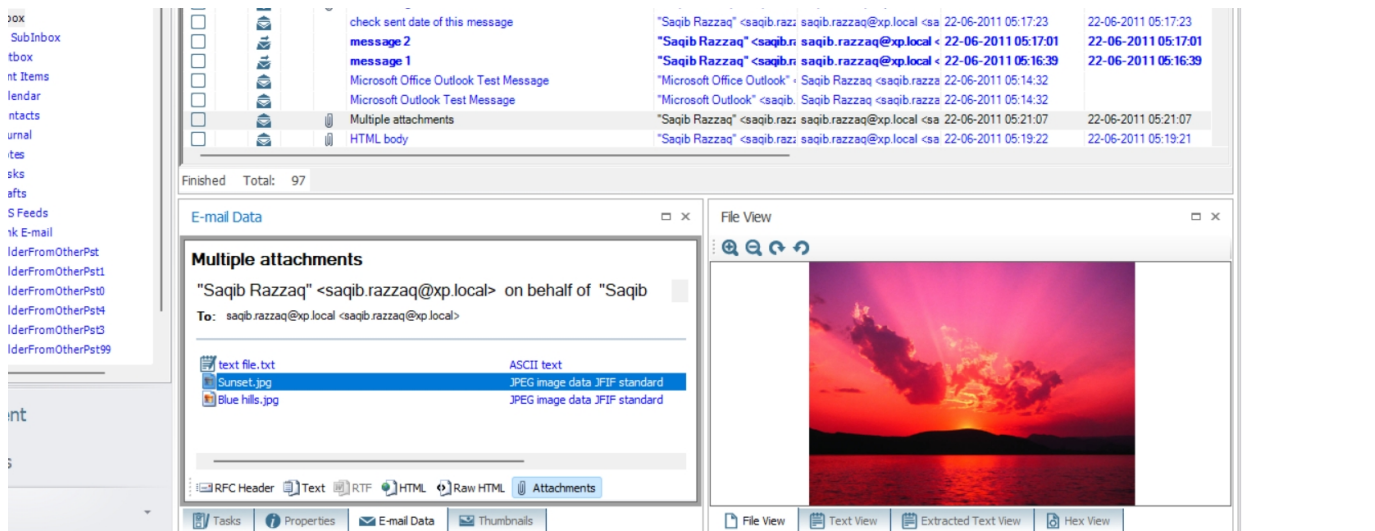

Properties	
General	Content Analysis
To	saqib.razzaq@xp.local <saqib.razzaq@xp.local>
Represent Sender	
Email	saqib.razzaq@xp.local
Name	Saqib Razzaq
Sender	
From	"Saqib Razzaq" <saqib.razzaq@xp.local>
Sender Address Type	SMTP
Sender E-mail	saqib.razzaq@xp.local
Sender Name	Saqib Razzaq
Subject	

Click content analysis tab in the properties to view the analyzed content of the deleted email.

The screenshot shows the same email client interface, but the 'Content Analysis' tab is now active in the 'Properties' window. It displays the following analysis results:

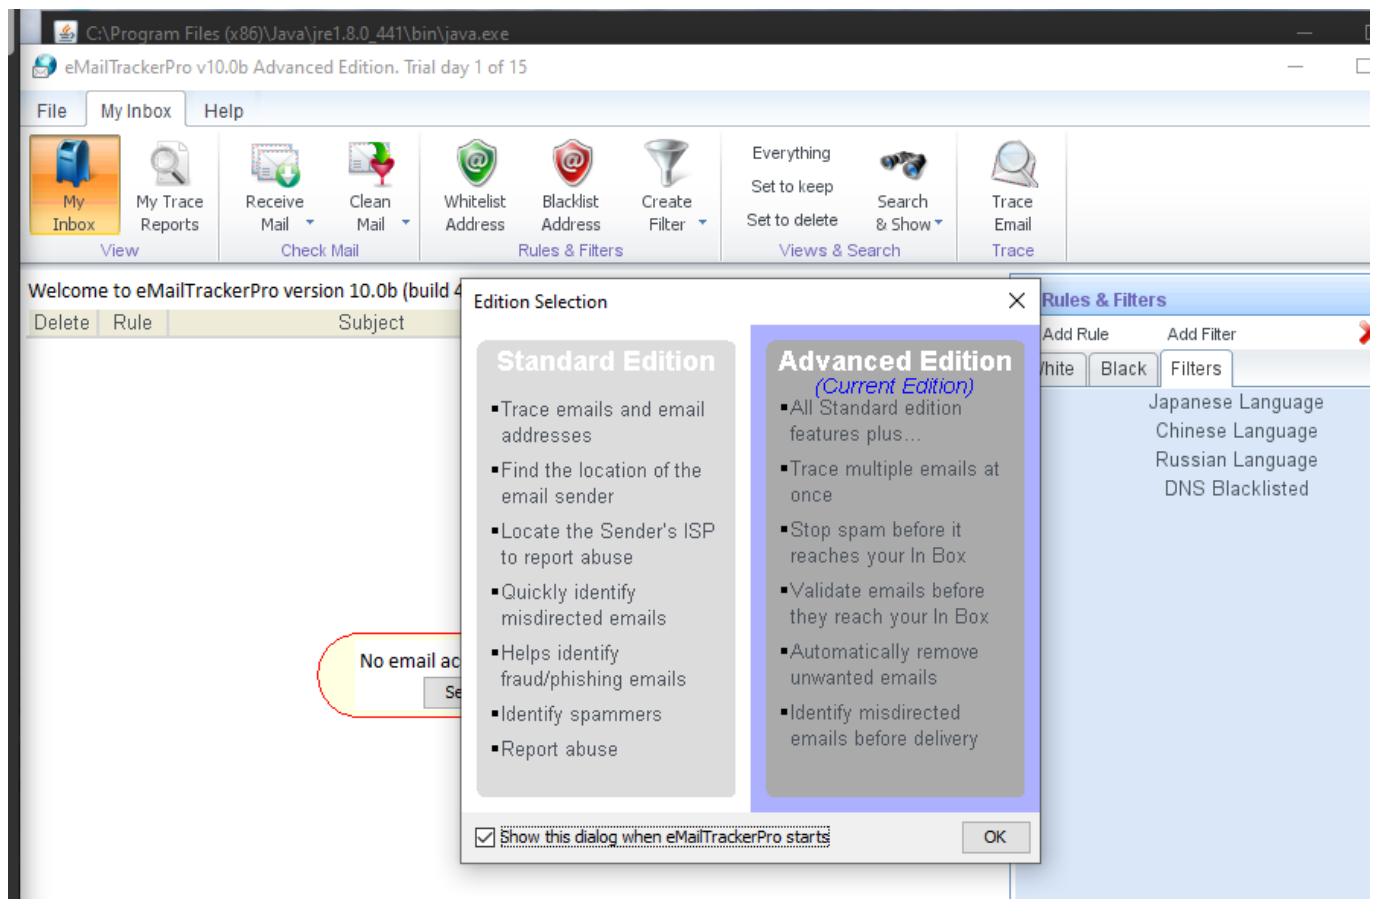

Content Analysis	
Common	
Extract Text from Images (OCR)	Yes
Keywords Indexed	Yes
Malware Scan	Yes
Sorted	Yes

Select Email data section to view the attachments in data viewer

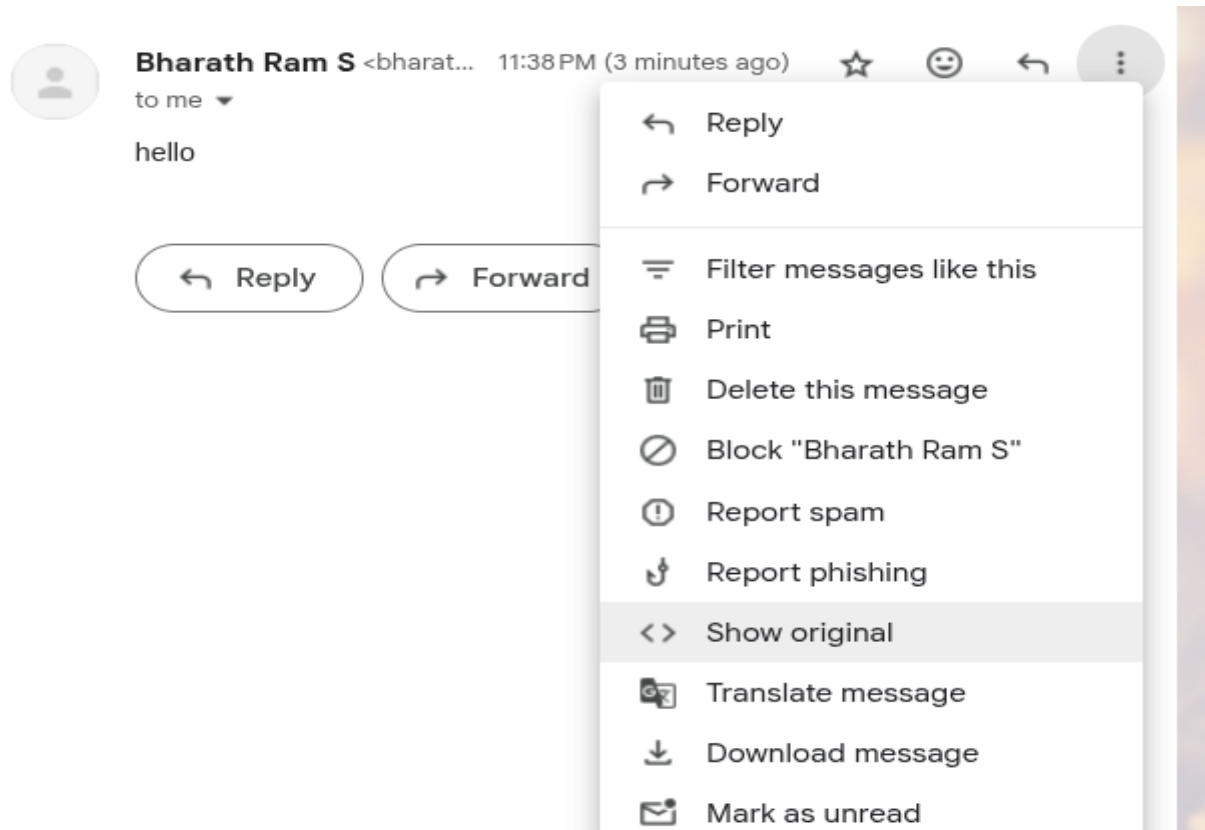

3. Tracing an email using the eMailTrackerPro Tool

open emailtrackerpro and select advanced edition

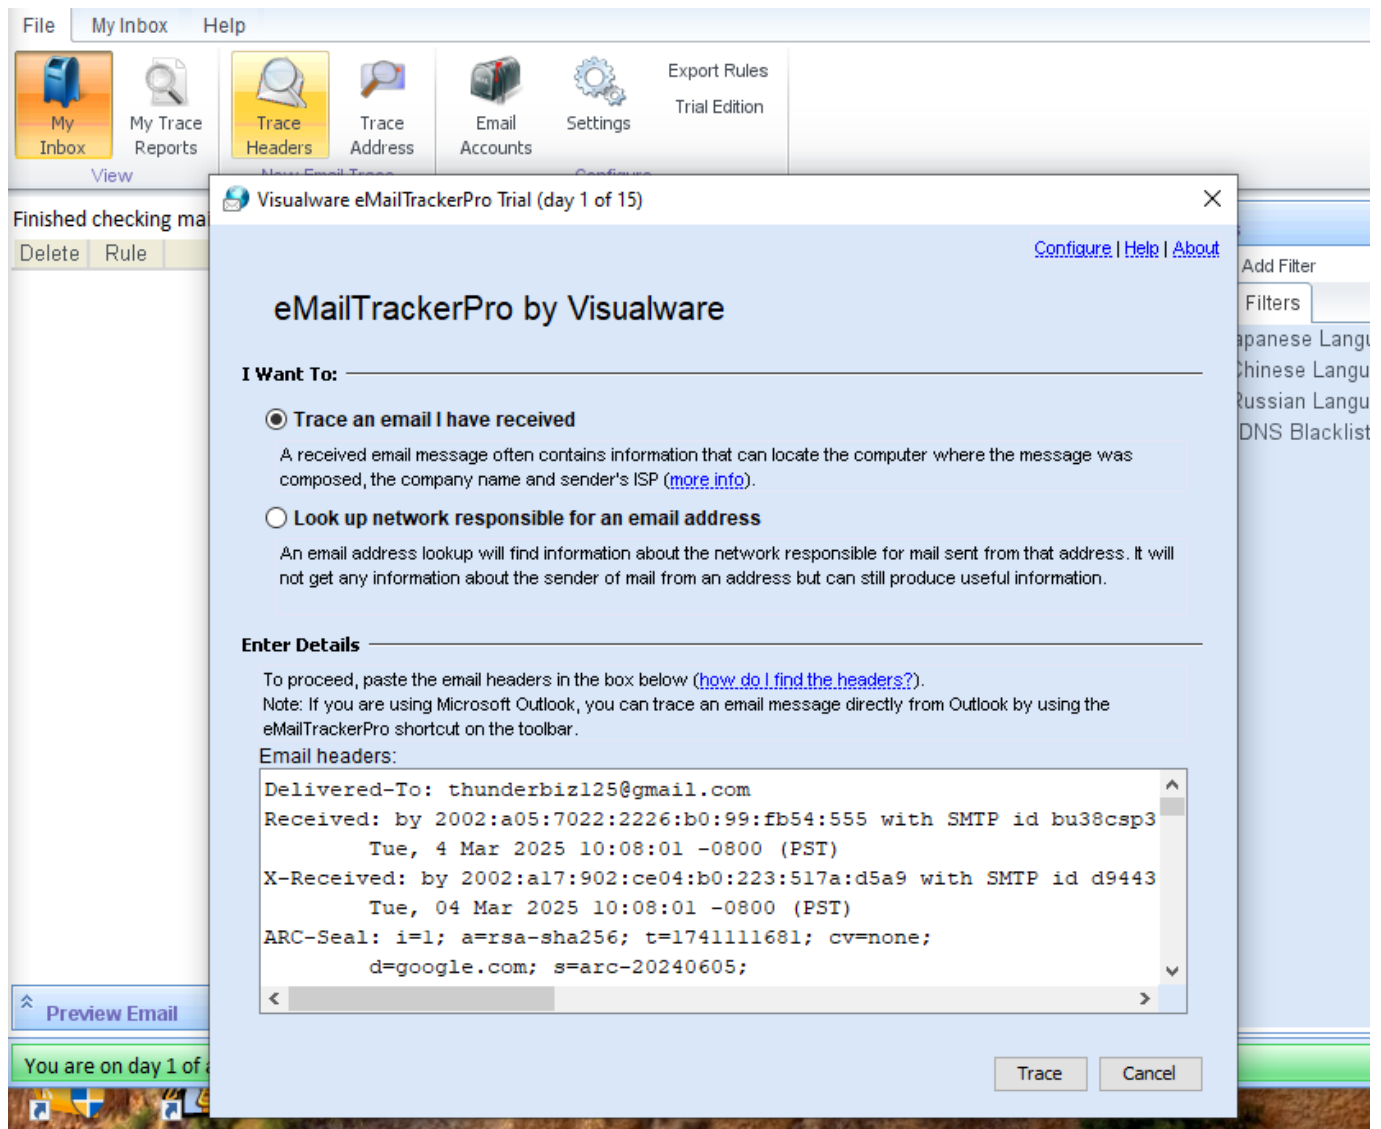

Open the email and select show original

Copy the original message

Message ID	<CALfCGT4uBOXoWvu-_2aqmy85Pk8GFuewMTDjFEjfJfFAt_WohA@mail.gmail.com>
Created at:	Tue, Mar 4, 2025 at 11:37 PM (Delivered after 13 seconds)
